Little Spoon is a California based company offering the best organic baby food. We began with just one mantra in mind, 'your baby's food should never be older than your baby.' We pick and choose farm fresh organic veggies and fruits, blend them into Babyblends, and deliver them straight to your door. You can pick a plan that fits your baby's needs and customize it any way you want. There's something for every baby at every age. There are no commitments, and you can skip or cancel a delivery anytime. Our blends are fresh, pediatrician recommended, nutritionally perfected and thoughtfully designed with your baby's needs in mind.
