At **UK Screeds** we are the leading provider of liquid floor screeds in England and Wales, with eleven branches. That means that we can provide you with floor screed at short notice.

- Liquid Screed
- Underfloor Heating

The screed will need sanding and we will undertake that between 6 to 8 days after laying so that you have the perfect final finish on which to lay your flooring. Our screed can also take foot traffic in 48 hours or less, so will not delay other contractors.
