VictoryPCB - PCB manufacturing and assembly services, China. Victory PCB Manufacturing Capability

Full range of PCB manufacturing and assembly services to fit all your printed circuit board capability needs.

- Circuit Board Assembly Manufactures
- PCB Assembly Companies in United States
- PCB Assembly Services
- rapid pcb prototyping
- pcb assembly services
- pcb assembly service

Victory has introduced world-class PCB production equipment and high-precision testing equipment. We adopted a scientific management model to form a strong and leading process manufacturing capability.

- 1 to 16 layers of PCB boards,
- a minimum aperture of 0.1mm,
- a minimum line width,
- minimum trace width/space 0.075mm,
- Line gap 0.075mm,
- 0.4mm BGA Pitch
- All are available in our processing.

Victory can design and process special processes such as controlled depth milling, half hole, mixed pressure and so on.
