Weimi Hardware Technology provides affordable and high-quality CNC manufacturing machined parts, expertly crafted and made to last. Our products cater to a wide range of industries, including automotive, aerospace, hydraulics, oil and gas, and more. With our quick prototyping service and a team of professional staff, you can guarantee fast production on all of your orders.

In addition, we also offer engineering solutions and assembly services. We can help you with your machining, metal finishing, metal fabrication, and other needs. We prioritize quality control, so you can guarantee a high standard of service from us!
